PHOTO VIDEO MONTAGE

What is a montage?

A video consisting of [your] photos, combined with transitions and accompanied by music. We return the finished product to you in either DVD or VHS format, to view and enjoy anytime.

What do I do?

1. **Stack all photos in the order you wish them to appear, top to bottom.** Your pictures will be digitally enhanced on the video. Slides and odd shaped photos can be used. We are also able to repair photos with creases, rips, spots etc*. We also remove—or insert—people, if needed!
2. **Using a quick drying ink PEN, number the photos** with a small number on a **back** corner. If you need to insert a photo into an already numbered stack add a letter after the number. (ex. 34, 34A, 34B, 35) (Do Not Use Felt Pens or Sharpies!)
3. **Write out titles on sticky notes and place them on the front of the designated photo[s].** The titles can appear separate from, or on the photo[s].
4. **Choose music.** Bring in songs preferably on separate CDs (burned CD's are okay, but the quality is not always the same). Music from records or cassette tapes can also be used. Your music will be edited to fit with the photos. 10 photos require approximately 1 minute of music.
5. **Video clips or 8mm film** can also be added.
6. **Select a photo** for customized cover that goes around the DVD case.
7. **Bring us the above pictures, music, and video clips.** We will review the montage details with you to create a beautifully customized, long-lasting memory!

Cost Breakdown:

Base Price is \$35.00 per 200 Photos, plus the following:

(includes the details that make your presentation unique)

Essentials

- 95 cents/photo
- \$20 per 200 photos to edit music
